

Prop 4: Support

<http://www.yesonproposition4.org/>

One liners:

- Provides specialized care for 2 million seriously ill or injured kids a year, regardless of family income
- Yes on Prop 4 - to provide specialized care for 2 million seriously ill or injured kids a year

California's 13 regional children's hospitals provide specialized care to treat children and young adults up to age 21 who are suffering from serious and life-threatening diseases such as leukemia, sickle cell disease, cancer, and cystic fibrosis.

The hospitals handle more than 2 million visits each year, regardless of a family's income or ability to pay. The Children's Hospital Bond of 2018 provides \$1.5 billion over 15 years to support this critical, life-saving care.
